

NDAKINNA OFFICE Consulting Services

The Ndakinna team at the Grand Conseil de la Nation Waban-Aki and its partners are proud to invite you to use our consulting services to help carry out your mandates. Our strength lies in a multidisciplinary, dynamic and creative team. In addition, as a First Nations organization, we fully understand the inherent realities.

Our areas of expertise:

- Coaching and support in **environmental project management**: environmental authorizations, delimitation / characterization of wetlands, conservation strategies and plans / development of natural areas, wildlife development, inventory and monitoring of plants and wildlife, outreach tools and activities, etc;
- Coaching and support in **ecotourism project management**;
- **Qualitative research**: review of social sciences literature, conducting interviews, data analysis, drafting reports, etc;
- Complete **geomatics** services: from the collection of data via ArcGIS mapping, including hydrography, agricultural and forestry land, thematic maps, etc.

We also have several types of **equipment** available for which partnerships are possible. Please contact us for a copy of the list of our available equipment.

Competitive rates! Please contact us!
